Dear Sir/Ma'am,

I am writing to express my enthusiastic interest in the Creative Designer Internship at DMT. I'm a committed, driven student who has a strong interest in graphic designing. I'm thrilled about the chance to share my knowledge and abilities while also developing myself further in this area.

I'm currently a B.Sc. CSIT student at Deerwalk Institute of Technology. I've always shown a great dedication to academic success and have a solid foundation in a number of Adobe programs, including Photoshop, Illustrator, and Premier Pro.

I have actively participated in extracurricular activities in addition to my studies to improve my problem solving skills. I think the environment at our campus, which places a strong emphasis on creativity, innovation, and cutting-edge technologies, is ideal for my future goals and will give me a platform to accelerate my growth as a designer.

I appreciate your consideration of my application. It would be a pleasure to join your team and have the chance to contribute to DMT grow while also developing personally and professionally. Please see the resume attached, which includes further information about my background and experience.

Please feel free to contact me at 9841939688 or adhit.upadhyay@deerwalk.edu.np at your convenience.

Regards,
Adhit Upadhyay
